## **Epsilon Pi Tau enjoys an active year**

by Dr. Ray Diez

**T**he Gamma Gamma Chapter of Epsilon Pi Tau initiated 16 new members during the 2007-2008 academic year. The student leadership of this organization is: Nenny, President; Shane Pence, Vice President; Trevor Harkness, Treasurer; and Collin Dunnigan, Secretary; were very active in revitalizing the organization. They decided that Gamma Gamma should have an initiation in both semesters—and they made it happen.

The student leadership organized and sponsored a Fall Technology Department Career Symposium with local businessmen and Department graduates serving on the panel, and a UND Technology Department Showcase for area high school juniors and seniors in January. Plans were also started for a “Lean Thinking” seminar for regional industries to be presented in conjunction with the Technology Department Advisory Council meeting in April. The new student leadership for the Gamma Gamma chapter is looking forward to continuing this aggressive agenda in 2008-2009.
