

College of Business and Public Administration

Department of Information Systems Graduate Faculty

UND Information Systems graduates go into careers as network administrators, database developers, information systems analysts, software programmers, technology consultants, computer support specialists, administrative services managers, computer systems vendors, and into a wide variety of emerging positions within the information systems and technology field. Job titles range from entry-level information management systems positions, e.g., technical support, to those in senior management, e.g., Chief Information Officer.
