The Nistler College of Business and Public Administration’s (NCoBPA) Strategic Plan, 2020-2025 provides focus and direction to our planning and decision-making processes, while supporting the goals of the University of North Dakota’s One UND strategic plan.

In 2019, the College of Business & Public Administration (CoBPA) was renamed the Nister College of Business and Public Administration. The Nistler College is composed of one school (Middleton School of Entrepreneurship & Management) and four departments (Accountancy & Information Systems, Economics and Finance, Marketing, and Political Science & Public Administration.) In addition to academic units, the College encompasses strategic outreach partners including the North Dakota Small Business Development Center (SBDC), Veterans Business Outreach Center (VBOC), and the Procurement Technical Assistance Center (PTAC).

Collaboration with key stakeholder groups throughout the creation of the College's strategic plan ensures full stewardship of our prioritized goals. These shareholders are among the following:

- Faculty and staff who we must attract, retain, and engage;
- Prospective and current students who wish to gain a strong foundation for successful lives and careers;
- Employers and members of the business, government, and non-profit communities who seek to hire our students and partner with us;
- Current and potential investors who are motivated to support our initiatives;
- Citizens of our state and region.

While our current strategic plan encompasses a five-year period, it is critical that the planning process remains dynamic and ongoing.

During Fall 2015, the CoBPA Executive Committee concluded the 2011 strategic plan provided an appropriate framework for setting strategy and guiding decision-making. We determined the current plan should be updated to take into account progress made in recent years, allowing the College to recommit to initiatives that had not been accomplished previously or that needed to be refined.

In the spring of 2016, a strategic task force solicited input from the following CoBPA stakeholders which was incorporated into the strategic plan:

- Advisory Council
- Faculty
- Staff
- Students
- Alumni
- UND Alumni Association and Foundation

The CoBPA Executive Committee approved a draft of the strategic plan in Summer, 2016. As the One UND strategic planning process was initiated at this time, the decision was made to support the university-wide process and re-evaluate the College strategic plan before finalizing to ensure alignment with university priorities.

In Spring 2019, a revised task force consisting of CoBPA leadership, faculty, staff, undergraduate and graduate students, and an Alumni Foundation representative met to reassess the College mission, vision and core values and closely align them with the goals of the College as well as the One UND Strategic Plan that had recently been finalized. In addition, this task force created five strategic initiatives to provide focus points for priority setting and resource allocation. All changes and additions were approved in Spring, 2019.
